

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The
Journal of Infectious Diseases

Published by the Memorial Institute for Infectious Diseases

EDITED BY
LUDVIG HEKTEON AND EDWIN O. JORDAN

IN CONJUNCTION WITH
FRANK BILLINGS F. G. NOVY
W. T. SEDGWICK H. GIDEON WELLS

Volume 15
1914

Chicago, 1914

TABLE OF CONTENTS

NO. 1, JULY, 1914

An Attempt to Transmit Poliomyelitis by the Bite of <i>Lyperosia Irritans</i> <i>Edward Francis</i> - - - - -	1
Complement-Fixation in <i>Gonococcus</i> Infections <i>John A. Kolmer and Claude P. Brown</i> - - - - -	6
A Simple Method of Cultivating Bacilli, Preferring Conditions of Partial Anaerobiosis (<i>B. Abortus</i> , Bang; <i>B. Bifidus</i> , Tissier) <i>George D. Horton</i> - - - - -	22
An Attenuated Culture of <i>Trypanosoma Brucei</i> <i>Charles August Behrens</i> - - - - -	24
Classification of Pathogenic Streptococci by Fermentation Reactions <i>J. G. Hopkins and Arvilla Lang</i> - - - - -	63
Anaerobic Cultures in Scarlet Fever (<i>with Plate 1</i>) <i>George F. Dick and Gladys R. Henry</i> - - - - -	85
The Characteristics of Bacteria of the Colon Type Found in Bovine Feces <i>L. A. Rogers, William Mansfield Clark, and Alice C. Evans</i> - - -	99
The Toxins of Intestinal Obstruction <i>Fraser B. Gurd</i> - - - - -	124
The Relationship of Septic Sore Throat to Infected Milk <i>Joseph A. Capps and David J. Davis</i> - - - - -	130
Experimental Bovine Mastitis Produced with Hemolytic Streptococci of Human Origin <i>David J. Davis and Joseph A. Capps</i> - - - - -	135
An Investigation into the Fermentative Activities of the Aciduric Bacteria <i>Alfred H. Rahe</i> - - - - -	141
Purpura Associated with <i>Bacillus Mucosus</i> in the Blood <i>G. C. Weil and J. W. McMeans</i> - - - - -	151
Studies on the Sanitation of Swimming Pools <i>Wallace A. Manheimer</i> - - - - -	159
Studies on the Classification of the Colon Group <i>I. J. Kligler</i> - - - - -	187
The Quinin Treatment of Rabies <i>James Gordon Cumming</i> - - - - -	205
A Method for Making Carbohydrate Serum Broth of Constant Composition for Use in the Study of Streptococci <i>W. L. Holman</i> - - - - -	209
The Action of Vaccines and of Concentrated Antistreptococcus Serum in Experimental Streptococcal Arthritis <i>Josiah J. Moore</i> - - - - -	215
The Use of Decolorized Acid Fuchsin as an Acid Indicator in Carbohydrate Fermentation Tests with Some Remarks on Acid Production by Bacteria <i>W. L. Holman</i> - - - - -	227
Experiments on the Variability of the Fermentative Reaction of Bacteria, Especially the Streptococci <i>William C. Thro</i> - - - - -	234

No. 2, SEPTEMBER, 1914

Tuberculocidal Action of Certain Chemical Disinfectants. Studies on the Biochemistry and Chemotherapy of Tuberculosis. IX <i>Lydia M. DeWitt and Hope Sherman</i> - - - - -	245
The Standardization of Antihog-Cholera Serum <i>Thomas P. Haslam and O. M. Franklin</i> - - - - -	257
A Biometrical Study of the Mucosus Capsulatus Group <i>J. G. Fitzgerald</i> - - - - -	268
The Formation of Antibodies in Rats Fed on Pure Vegetable Proteins (Osborne-Mendel Stunting Food) <i>Ludvig Hektoen</i> - - - - -	279
The Bacteriology of Vaginitis <i>W. B. Sharp</i> - - - - -	283
The Relative Longevity of Different Streptococci and Possible Errors in the Isolation and Differentiation of Streptococci <i>W. L. Holman</i> - - - - -	293
Observations on the Growth of the Gonococcus and the Staphylococcus Albus from the Urethra in Plate Culture (A Criticism of Warden's Work) <i>E. G. Crabtree</i> - - - - -	309
Some Structural Transformations of the Blood-Cells of Vertebrates (with Plate 2) <i>G. L. Kite</i> - - - - -	319
Infection of Man with Bacterium Tularensis (with Plate 3) <i>William B. Wherry and B. H. Lamb</i> - - - - -	331
The Etiology of Dengue. An Attempt to Produce the Disease in the Rhesus Monkey by the Inoculation of Defibrinated Blood <i>C. H. Lavinder and Edward Francis</i> - - - - -	341
The Bacillus Abortus Equinus as an Etiological Factor in Infectious Arthritis of Colts <i>Edwin S. Good and Wallace V. Smith</i> - - - - -	347
An Anaerobic Vibrio Isolated from a Case of Acute Bronchitis <i>Ruth Tunnickliff</i> - - - - -	350
A Pleomorphic Branching Organism Isolated from a Case of Chronic Rhinitis <i>Ruth Tunnickliff</i> - - - - -	352
The Esterase Activity of Plain and Dextrose Broth Cultures of the Typhoid Bacillus. Studies in Bacterial Metabolism. XXXIX <i>A. I. Kendall and J. P. Simonds</i> - - - - -	354
The Bacteriological and Chemical Evidence of the Occurrence of a Hexose Sugar in Normal Milk <i>Harry M. Jones</i> - - - - -	357
The Treatment of Tetanus by Antitetanic Serum <i>Ernest E. Irons</i> - - - - -	367
The Growth and Viability of Streptococci of Bovine and Human Origin in Milk and Milk Products <i>David John Davis</i> - - - - -	378
The Renal Changes in Rabbits Inoculated with Streptococci <i>E. R. LeCount and Leila Jackson</i> - - - - -	389
The Etiology of Pyemic Arthritis in Foals <i>Frank W. Schofield</i> - - - - -	409

TABLE OF CONTENTS

vii

No. 3, NOVEMBER, 1914

The Metabolism of Saprophytic Human Tubercle Bacilli in Plain, Dextrose, Mannite, and Glycerin Broths. Studies in Acid-Fast Bacteria. I	
<i>A. I. Kendall, A. A. Day, and A. W. Walker</i>	417
The Metabolism of Certain Rapidly Growing Human Tubercle Bacilli in Broth Free from Lipoids and Fatty Substances. Studies in Acid-Fast Bacteria. II	
<i>A. I. Kendall, A. A. Day, and A. W. Walker</i>	423
The Metabolism of Certain Rapidly Growing Human Tubercle Bacilli in a Modified Uschinsky Medium. Studies in Acid-Fast Bacteria. III	
<i>A. I. Kendall, A. A. Day, and A. W. Walker</i>	428
The Metabolism of Certain Rapidly Growing Tubercle Bacilli in Media with Inorganic Salts as Sources of Nitrogen. Studies in Acid-Fast Bacteria. IV.	
<i>A. I. Kendall, A. A. Day, and A. W. Walker</i>	433
The Metabolism of "Lepra Bacillus," Grass Bacillus, and Smegma Bacillus in Plain, Dextrose, Mannite, and Glycerin Broths. Studies in Acid-Fast Bacteria. V	
<i>A. I. Kendall, A. A. Day, and A. W. Walker</i>	439
The Occurrence of a Soluble Lipase in Broth Cultures of Tubercle Bacilli and Other Acid-Fast Bacteria. Studies in Acid-Fast Bacteria. VI	
<i>A. I. Kendall, A. W. Walker, and A. A. Day</i>	443
The Relative Activity of the Soluble Lipase and Lipase Liberated during Autolysis of Certain Rapidly Growing Tubercle Bacilli. Studies in Acid-Fast Bacteria. VII	
<i>A. I. Kendall, A. W. Walker, and A. A. Day</i>	451
Observations on the Specificity and Thermostability of the Lipase Developed during the Growth of a Rapidly Growing Tubercle Bacillus in Media of Varied Composition. Studies in Acid-Fast Bacteria. VIII	
<i>A. I. Kendall, A. W. Walker, and A. A. Day</i>	455
A Comparison of the Curves of Lipolytic Activity and Proteolysis of Certain Rapidly Growing Human Tubercle Bacilli in Media of Varied Composition. Studies in Acid-Fast Bacteria. IX	
<i>A. I. Kendall, A. W. Walker, and A. A. Day</i>	460
A Comparison of the Curves of Lipolytic Activity and Proteolysis of Certain Acid-Fast Bacilli in Nutrient Broths. Studies in Acid-Fast Bacteria. X	
<i>A. I. Kendall, A. W. Walker, and A. A. Day</i>	467
The Effect of Cholesterol on Phagocytosis	
<i>Kaethe Dewey and Frank Nuzum</i>	472
The Formation of Chlamydospores in <i>Sporothrix Schenckii</i>	
<i>David John Davis</i>	483
An Experimental Study of the Influence of Iodin and Iodids on the Absorption of Granulation Tissue and Fat-Free Tubercle Bacilli. Studies on the Biochemistry and Chemotherapy of Tuberculosis. X	
<i>Edwin Frederick Hirsch</i>	487
The Antigenic Properties of Glycoproteins	
<i>Chester H. Elliott</i>	501
The Therapeutic Value of Copper and Its Distribution in the Tuberculous Organism. Studies on the Biochemistry and Chemotherapy of Tuberculosis. XI	
<i>Harry J. Corper</i>	518

The Relation between the Allergic Intracutaneous Reaction and the Symptoms of Anaphylaxis	
<i>Grace L. Meigs</i>	541
The Protein Poison of the Tonsil	
<i>W. H. Burmeister</i>	549
Histologic Differentiation by Means of Anilin Stains in Association with "Regressive Mordanting," with Special Reference to Elastic Tissue	
<i>H. F. Harris</i>	561
The Effect of Gentian Violet on the Bacillus Tetani, Tetanus Toxin, and Certain Laboratory Animals	
<i>Ivan C. Hall and Loren B. Taber</i>	566
The Production of Acid by the Bacillus Coli Group	
<i>William W. Browne</i>	580
